SAVE UP TO 25%

### SAFETY DATA SHEET AMSOIL Severe Gear® SAE 75W-140 100% Synthetic Gear Lube

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200 and WHMIS 2015, in compliance with the Hazardous Product Act (HPA, as amended) and the requirements of the Hazardous Product Regulations (HPR).

1. Identification		
Product identifier		
Product name	AMSOIL Severe Gear® SAE 75W-140 100% Synthetic Gear Lube SVO	
Product number		
Recommended use of the che	emical and restrictions on use	
Application	Lubricating oil.	
Uses advised against	Avoid the formation of mists.	
Details of the supplier of the s	afety data sheet	
Supplier	AMSOIL INC. Bordner, Ladner, Gervais Scotia Plaza, 40 King St W Toronto, ON, Canada M5H 3Y4 T: +1 416-367-6547	
Manufacturer	AMSOIL INC. One AMSOIL Center, Superior, WI 54880, USA. T: +1 715-392-7101	
Emergency telephone number		
Emergency telephone	CHEMTREC: Within USA and Canada: 1-800-424-9300 Outside the USA and Canada: +1 703-741-5970 (collect calls accepted) 24/7	
2. Hazard(s) identification		
Classification of the substance	e or mixture	
OSHA/WHMIS Regulatory Status	This Product is not Hazardous under the OSHA Hazard Communication Standard and according to the hazard criteria of the Hazardous Product Regulations.	
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
Label elements		
Hazard statements	NC Not Classified	
Other hazards		
This product does not contain any substances classified as PBT or vPvB.		

3. Composition/information on ingredients

#### Mixtures

Hydrogenated base oil	10 - <25%
CAS number: 64742-54-7	
<b>Classification</b> Asp. Tox. 1 - H304	
Amines, polyethylenepoly-,	reaction products 1 - <2.5%
CAS number: Proprietary	
<b>Classification</b> Eye Irrit. 2A - H319	
The full text for all hazard sta	tements is displayed in Section 16.
Composition comments	The exact identity is withheld as a trade secret in accordance with 29 CFR 1910.1200.
4. First-aid measures	
Description of first aid measu	
General information	Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt.
Ingestion	Rinse mouth thoroughly with water. Remove any dentures. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Do not induce vomiting unless under the direction of medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Maintain an open airway. Loosen tight clothing such as collar, tie or belt.
Skin Contact	Remove affected person from source of contamination. Rinse immediately with plenty of water.
Eye contact	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes.
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.
Most important symptoms an	d effects, both acute and delayed
General information	See Section 11 for additional information on health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	Prolonged inhalation of high concentrations may damage respiratory system.
Ingestion	Gastrointestinal symptoms, including upset stomach. Fumes from the stomach contents may be inhaled, resulting in the same symptoms as inhalation.
Skin contact	Prolonged contact may cause dryness of the skin.
Eye contact	May cause temporary eye irritation.
Indication of immediate medi	cal attention and special treatment needed
Notes for the doctor	Treat symptomatically.
Specific treatments	No special treatment required.
5. Fire-fighting measures	
Extinguishing media	

2/11

Suitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Special hazards arising from t	he substance or mixture
Specific hazards	Containers can burst violently or explode when heated, due to excessive pressure build-up. Contains Hydrocarbons. The product is immiscible with water and will spread on the water surface.
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.
Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves, that provides a basic level of protection during chemical incidents is defined by the Canada Occupational Health and Safety Regulations, by provincial guidelines on occupational health and safety or by NFPA standards if applicable.
6. Accidental release measure	95
Personal precautions, protecti	ve equipment and emergency procedures
Personal precautions	No action shall be taken without appropriate training or involving any personal risk. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Follow precautions for safe handling described in this safety data sheet. Wash thoroughly after dealing with a spillage. Use protective equipment appropriate for surrounding materials.
Environmental precautions	
Environmental precautions	Avoid discharge to the aquatic environment.
Methods and material for cont	ainment and cleaning up
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Reuse or recycle products wherever possible. Absorb the spillage with an inert, dry material and place it in a suitable waste disposal container. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.
Reference to other sections	For personal protection, see Section 8. For waste disposal, see Section 13.
7. Handling and storage	
Precautions for safe handling	
Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Avoid contact with used product. Do not reuse empty containers.

Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace.
Conditions for safe storage, ir	ncluding any incompatibilities
Storage precautions	Store away from incompatible materials (see Section 10). Keep container tightly closed, in a cool, well ventilated place. Protect containers from damage.
Storage class	Chemical storage.
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.
8. Exposure Controls/persona	Il protection
Control parameters	
Occupational exposure limits	
Under conditions which may g Long-term exposure limit (8-h	generate mists, the following exposure limits are recommended:
Short-term exposure limit (15-	
Ingredient comments	The product contains no other substances classified as hazardous to health by an OEL value in concentrations which should be taken into account.
Exposure controls	
Appropriate engineering controls	Provide adequate ventilation. Good general ventilation should be adequate to control worker exposure to airborne contaminants.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with OSHA 1910.133 and/or the Canadian regulation on health and safety at work, SOR/86-304, Part XII (12.6), and any relevant provincial regulation relating to health and safety at work. The following protection should be worn: Chemical splash goggles.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with OSHA 1910.138 and/or the Canadian regulation on health and safety at work, SOR/86-304, Part XII (12.9), and be demonstrated to be impervious to the chemical and resist degradation. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.
Other skin and body protection	Appropriate footwear and additional protective clothing complying with an approved standard should be worn if a risk assessment indicates skin contamination is possible.
Hygiene measures	Provide eyewash station and safety shower. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Clean equipment and the work area every day. Good personal hygiene procedures should be implemented. Wash at the end of each work shift and before eating, smoking and using the toilet. When using do not eat, drink or smoke.
Respiratory protection	Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn.

Environmental exposure	Not regarded as dangerous for the environment.
controls	

9. Physical and Chemical Prop	perties		
Information on basic physical and chemical properties			
Appearance	Liquid.		
Color	Yellow.		
Odor	Sulfur.		
Odor threshold	Not available.		
рН	Not available.		
Melting point	Not available.		
Initial boiling point and range	Not available.		
Flash point	210°C Cleveland open cup. [ASTM D 92]		
Evaporation rate	Not available.		
Upper/lower flammability or explosive limits	Not available.		
Vapor pressure	Not available.		
Vapor density	Not available.		
Relative density	0.8639		
Solubility(ies)	Not known.		
Partition coefficient	Not available.		
Auto-ignition temperature	Not available.		
Decomposition Temperature	Not available.		
Viscosity	177.7 cSt @ 40°C 26.1 cSt @ 100°C [ASTM D 445]		
Explosive properties	Not considered to be explosive.		
Oxidizing properties	Does not meet the criteria for classification as oxidizing.		
Fire point	228°C Cleveland open cup. [ASTM D 92]		
Pour point	-43°C [ASTM D 97]		
10. Stability and reactivity			
Reactivity	See the other subsections of this section for further details.		
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.		
Possibility of hazardous reactions	No potentially hazardous reactions known.		
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.		

Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.		
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.		
11. Toxicological information			
Information on toxicological ef	fects		
Toxicological effects	Not regarded as a health hazard under current legislation.		
Acute toxicity - oral Notes (oral LD₅o)	Based on available data the classification criteria are not met.		
Acute toxicity - dermal Notes (dermal LD₅₀)	Based on available data the classification criteria are not met.		
Acute toxicity - inhalation Notes (inhalation LC <sub>50</sub> )	Based on available data the classification criteria are not met.		
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.		
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.		
Respiratory sensitization Respiratory sensitization	Based on available data the classification criteria are not met.		
Skin sensitization Skin sensitization	Based on available data the classification criteria are not met.		
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.		
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.		
IARC carcinogenicity	None of the ingredients are listed or exempt.		
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.		
Reproductive toxicity - development	Based on available data the classification criteria are not met.		
Specific target organ toxicity -			
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.		
Specific target organ toxicity - STOT - repeated exposure	repeated exposure Not classified as a specific target organ toxicant after repeated exposure.		
Aspiration hazard Aspiration hazard	Based on available data the classification criteria are not met.		
General information	No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.		

Inhalation	Prolonged inhalation of high concentrations may damage respiratory system.
Ingestion	Gastrointestinal symptoms, including upset stomach. Fumes from the stomach contents may be inhaled, resulting in the same symptoms as inhalation.
Skin Contact	Prolonged contact may cause dryness of the skin.
Eye contact	May cause temporary eye irritation.
Route of exposure	Ingestion Inhalation Skin and/or eye contact
Target Organs	No specific target organs known.
Medical considerations	Skin disorders and allergies.

#### Toxicological information on ingredients.

Hydrogenated base oil

	Acute toxicity - oral	
	Notes (oral LD₅₀)	LD₅₀ >5000 mg/kg, Oral, Rat REACH dossier information.
	Acute toxicity - dermal	
	Notes (dermal LD <sub>50</sub> )	LD₅₀ >5000 mg/kg, Dermal, Rabbit REACH dossier information.
	Acute toxicity - inhalation	
	Notes (inhalation LC50)	$LC_{50}$ >5.53 mg/l, Inhalation, Rat REACH dossier information.
	Skin corrosion/irritation	
	Animal data	Dose: 0.5ml, 24 hours, Rabbit Erythema/eschar score: No erythema (0). Edema score: No oedema (0). REACH dossier information.
	Serious eye damage/irritati	on
	Serious eye damage/irritation	Dose: 0.1ml, 72 hours, Rabbit REACH dossier information.
	Skin sensitization	
	Skin sensitization	Buehler test - Guinea pig: Not sensitizing. REACH dossier information.
	Germ cell mutagenicity	
	Genotoxicity - in vitro	Gene mutation: Negative. REACH dossier information.
	Genotoxicity - in vivo	Chromosome aberration: Negative. REACH dossier information.
	Reproductive toxicity	
	Reproductive toxicity - fertility	Screening - NOAEL > 1000 mg/kg/day, Oral, Rat P REACH dossier information.
	Reproductive toxicity - development	Developmental toxicity: - LOAEL: 125 mg/kg/day, Dermal, Rat REACH dossier information.
12. Ecologica	al Information	
Ecotoxicity	Not rega	rded as dangerous for the environment. However, large or frequent spills may have

hazardous effects on the environment.

Toxicity

Based on available data the classification criteria are not met.

Ecological information on ingredients.

Hydrogenated base oil			
	Acute aquatic to	xicity	
	Acute toxicity - fis	<b>sh</b> LL <sub>50</sub> , 96 hours: > 100 mg/l, Pimephales promelas (Fat-head Minnow)	
	Acute toxicity - ad invertebrates	<b>quatic</b> EL₅₀, 48 hours: > 10000 mg/l, Daphnia magna	
	Acute toxicity - a plants	<b>quatic</b> NOEL, 72 hours: > 100 mg/l, Pseudokirchneriella subcapitata	
Persistence	e and degradability		
Persistence	e and degradability	The degradability of the product is not known.	
Ecological i	information on ingre	edients.	
		Hydrogenated base oil	
	Biodegradation	Water - Degradation 31: 28 days Inherently biodegradable.	
Bioaccumu	lative potential		
Bio-Accum	ulative Potential	No data available on bioaccumulation.	
Partition co	efficient	Not available.	
Mobility in s	soil		
Mobility		No data available.	
Other adve	rse effects		
Other adve	er adverse effects None known.		
13. Disposa	al considerations		
	tment methods		
General inf	ormation	The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements.	
Disposal m	ethods	Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste packaging should be collected for reuse or recycling. Incineration or landfill should only be considered when recycling is not feasible. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of the local water authority.	
14. Transpo	ort information		
General		The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, DOT, TDG).	
UN Numbe	<u>r</u>		
Not applica	ble.		
UN proper :	shipping name		
Not applica	ble.
